The Gap Between Attention and Revenue

WHY SYSTEMS MATTER NOW

110K+

ACCOUNTS REACHED (30 DAYS)

Massive surge driven by NYFW SS26.
This attention is currently unmonetized.

0

AUTOMATED EMAIL FLOWS

Klaviyo exists but is bare. No welcome
flow, no cart recovery, no drop alerts.

0

INFLUENCER PIPELINE

Celebrity cosigns exist but no structured
seeding system or creator database.

STRATEGIC INSIGHT

Every day without systems running, attention leaks. The brand generates demand — the infrastructure converts it. That's what we're building.

Five Phases. One System.

60/mo orders | $165 AOV

Why This Plan. Why Now.

THE CASE FOR BUILDING NOW

1

MOMENTUM IS PEAKING

NYFW SS26 just happened. 110K reach. The window to capture this attention is now.

2

SYSTEMS COMPOUND

Every week without infrastructure running is revenue lost. Flows, content, and seeding build on each other.

3

THE DATA PROVES IT

Klaviyo flows generate 30x revenue/recipient. Seeding drives 92% brand awareness increase.

4

CULTURALLY TIMED

Luxury consumers want narrative, not logos. NOMA’s 11-year story is the differentiator — systems amplify it.

5

FOUNDER-READY

Amon’s creative vision is clear. What’s needed is the operational engine to match it.
